## BACKGROUND AND EXPERIENCE

### 1. Please briefly present the organization.

#### Our Organization's History and Experience

FI Gesundheits- und Sportverein is a youth community that started its activities in Klagenfurt in 2022 and was founded by people dedicated to sport and the integration of young people into society through sport. FI Gesundheits- und Sportverein is an active non-governmental organization that steers its work on a voluntary basis. The members of our community consist of students and graduates of the Faculty of Sports Sciences, each of whom has studies on sports and culture. Our group aims to spread the contribution of sports to both mental and physical health to young people and to increase their interest in healthy living. In this context, our organization is a youth organization when evaluated in terms of both its founding purposes and activities.

#### Our Organization's Motivation

Our association has about 80 active members. Three of these members are founding members. Our founding members work on sports, how sports reflect the culture, how to reintegrate young people into society through sports, and the contribution of healthy life to mental and physical health, and they involve young people in these activities. In this context, our organization carries out its activities with the motivation of bringing people closer to sports and bringing young people into society through sports, by increasing the awareness of young people and cultures that are gradually moving away from sports. From this point of view, there are some goals that our community wants to achieve. These goals can be explained as follows:

- By explaining the link between sports and culture, to bring cultures and

societies closer to sports and to carry out activities that will ensure the dissemination of traditional sports that are about to be forgotten,

- To carry out studies and workshops in order to enable young people to be interested in sports and to understand the physical and mental benefits of sports,
- To inform youth and youth workers about reintegrating them into society by making use of the unifying power of sports,
- To help young people get away from their social concerns by participating in cultural activities and to see sports as a tool to increase their self-confidence.

Our group continues to develop social responsibility and volunteering projects in line with these goals by raising awareness in sports. In this context, our community also cooperates with many sports clubs in Klagenfurt and Carinthia State.

#### Our Mission and Vision

Our group, which aims to spread sports among young people and youth workers, to ensure that cultures exist through sports and to ensure cultural dialogue through sports, aims to organize workshops, seminars and projects by promoting sports branches and supporting young people to make sports a habit. In order to achieve these goals, our young and dynamic community members are constantly renewing themselves and signing new activities. In this direction, there is a large audience that our group wishes to address while carrying out its activities and works. With this audience, the work of our community gains even more meaning.

If we describe our target audience;

Young people and individuals working with them are the main target groups of our community. To increase visibility and participation in sport, culture and sport to encourage young people into the habit of sports to bring young people through our work

on topics such as the processing and directly reach our target we set the population, depending on the state, youth centres, municipalities, sports clubs and local sports clubs working with young people and those individuals are included in our studies. From this point of view, the audience that our community wants to influence while doing its work includes parents, young people, educators working with young people and youth organizations. In this sense, everyone who interacts with young people directly or indirectly constitutes the target audience of our community.

In addition, there are many activities we have developed to reach our target audience and, accordingly, the goals of our community. These activities consist of a series of activities such as workshops, exercise activities and informative training courses to gain the habit of sports, in which we involve the local people. In this context, we are on the way to create the awareness and participation we want to create throughout Klagenfurt and the State of Carinthia with our activities.

## **2. What are the activities and experience of the organisation in the areas relevant for this application?**

### **Our Organization's History and Experience**

FI Gesundheits- und Sportverein is a youth community that started its activities in Klagenfurt in 2022 and was founded by people dedicated to sport and the integration of

**3. Please describe the profile of each of the group members and what does each one bring to the project (in terms of competences, experience etc.).**

Profiles and Past Experiences of Our Key Persons

5 different key persons have been selected in order to carry out our association's activities effectively. These key persons were chosen from among people with different qualifications and experiences. Each of our key persons has a different education and a different story of joining our community. In this sense, the profiles of our key persons are as follows:

Our first key person is Elvis Nikocecic, who is also the president of our organization. After his high school graduation, he took courses on cooking in Gastgewebeschool Radovljica in Slovenia. After his education there, he started to have interest in healthy eating habits and sports. Since then he has worked for several different restaurants as a chef. He is interested in fitness, tennis and other sports as an amateur. Our member's English communication skills are quite high within the framework of the training he receives, regardless of his profession. In this context, since he is of Slovenian descent, he speaks 3 different languages, Slovenian, German and English, as his mother tongue. In this sense,

our association has a key position in international projects, as it is located in many different countries and has experience abroad.

Our second key person is a graduate of the Alpen-Adria-Universität Klagenfurt Faculty of Communication. He received training on effective communication and carried out studies focused on this area. In addition, since he is a graduate of the Department of Public Relations and PR, he has contributed to the development of our community in the field of dissemination and increasing its visibility.

Our third key person is a graduate of Alpen-Adria-Universität Klagenfurt Psychological Counseling and Guidance and a graduate student from Alpen-Adria-Universität Klagenfurt. He has become a member of our community through his friends. After becoming a member of our community, he took on the consultancy of young people in our work with young people. In addition, our key person is an individual with strong communication skills, who is adopted by young people with his calm and reassuring approach.

Our fourth key person is a graduate of the University of Salzburg in German Language Teaching. He has voluntarily joined our community by seeing our work on the internet. Our member, who participated in numerous Erasmus+ projects during his student years, also has experience in the field of project trainer. Thanks to the leadership and eloquence skills of our key member, our activities reach the desired result without any problems. At the same time, he represents us in international platforms thanks to his English and German proficiency.

Our fifth key person is a Sports Science student at the University of Innsbruck. He is still studying at university and is interested in basketball outside of school. Our member, who is a licensed athlete, explores traditional sports and cultures as an amateur as well as basketball. In this context, our member, who is writing his thesis on the reflection of cultures on sports, has added different visions to our work in our community's multi-faceted approach to sports.

## Competencies that our key persons will add to our project

The past experiences and profiles of our key persons are detailed above. In this topic, we will talk about the contributions and qualifications of our members to our project.

Since our first key person is interested in sports such as fitness and tennis as a hobby, he is responsible for the physical activities carried out within the scope of our association. At the same time, thanks to his English communication skills, he works to ensure a healthy communication between the participants. Our key person with long-term overseas experience is the person responsible for the realization of intercultural dialogue.

Our second key person is a Public Relations and PR graduate. In this context he will take part in the dissemination and sustainability of our projects thanks to his education and knowledge.

Our third key person is a PDR graduate and helps our participants in providing their physical and mental adaptations within our association. In addition, he plays an active role in the support unit created for participants with fewer opportunities who will participate in our projects.

Our fourth key person is an experienced member in the field of Erasmus+ trainer. In this context, he is responsible for the execution of the activities carried out within the scope of the association and their smooth running. In addition, thanks to his Erasmus+ experiences, he is actively involved in quality improvement studies.

Our fifth key person is involved in the creation of the activities determined in the annual work plans due to his interest in different sports branches.

**4. Would you like to make any comments or add any information to the summary of your organisation's past participation?**

Our Accepted Projects;

"Sustainability in Sport" KA152-YOU-8A3E1A70

Within the scope of the project, our aim is to produce solutions to existing and emerging environmental problems through environmental sustainability in sports, participation in sports in sports fields and in the natural environment, and to carry out preventive, protective, healing and supportive activities. It is aimed to raise awareness about the concepts of "sustainability" and "environmental sustainability in sports" by contributing to the elimination of the lack of environmental awareness in society. In addition to this, it is to raise awareness in the society about the necessity of protecting the environment while doing sports and to increase the number of studies that do not draw enough attention to the concept of environmental sustainability in sports.
